Schubert General Contracting, LLC  
*"Quality construction, dependable contracting"*

## Executive Summary

I received my Bachelor's Degree in Landscape Architecture with a concentration in Design in 1995 from the University of Rhode Island. My interest in design led me into the construction industry in Alaska for the last 19 years. During that time I have worked in numerous aspects of residential and commercial construction. During this time I became lead carpenter for numerous contractors and realized my capability at supervising and managing the job site. This led me to start my own business in 2010, Schubert's Services.

By 2012 I had passed my Contractors Exam with a Residential Endorsement. Then in 2013 I gained my Contractor General License with full insurance and became Schubert General Contracting, LLC.

With a good understanding of the construction industry along with almost 20 years of experience in Alaska and a personal dedication to my clients satisfaction. I am proud to offer the services of Schubert General Contracting where I am able to bring together my skills of construction, project supervision, management and love of design.

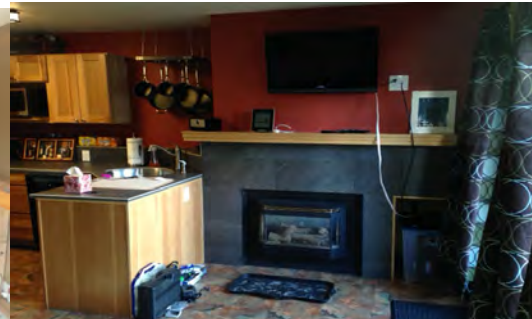

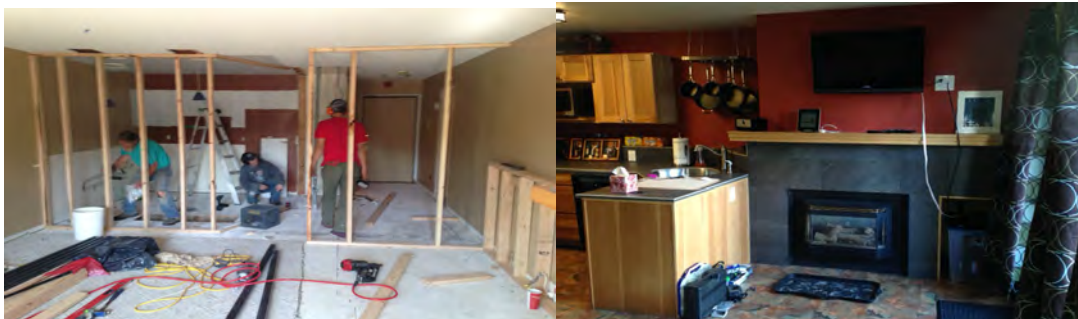

Some of my present subs include:

- Viking Plumbing and Heating
- Intelligent Design Electrical
- Alaska Compressor and Generator Services
- Deford Masonry
- Collin's Custom Cuts (Flooring Contractor)
- Chris's Custom Painting
- Peterson Maintenance
- Pilings Plus
